## Professional Experience

### Escala — Senior Software Engineer

May 2022 - Present | São Paulo, Brazil

- Led the development of a high-impact SaaS platform initially designed for Hospital Israelita Albert Einstein's ICU, now adopted by major clients such as DocWay, CBF, Centauro, and Nike.
- Overhauled the front end using ReactJS, NextJS, and styled-components, resulting in a more maintainable and scalable codebase.
- Integrated React micro front ends with AWS Pipelines, enhancing deployment efficiency and reliability.
- Collaborated with back-end teams to implement scalable PHP (Laravel) and MySQL solutions.
- Contributed to driving nearly \$1 million in monthly revenue through client subscriptions.

### Hotmart — Front-End Web Developer

September 2021 - May 2022 | São Paulo, Brazil

- Developed and optimized front-end components for Hotmart's platform, focusing on privacy and international compliance.
- Ensured high code quality and maintainability by applying best practices in TypeScript, ReactJS, and Jest.
- Spearheaded the creation of responsive and accessible UI components, improving user experience across global markets.
- Led an initiative that improved platform security by nearly 15% through major bug fixes and enhancements.

### FDTE - Foundation for the Technological Development of Engineering — Full-Stack Web Developer

September 2019 - September 2021 | São Paulo, Brazil

- Delivered full-stack solutions for various clients, including front-end development with ReactJS and back-end enhancements using NodeJS.
- Conducted extensive refactoring and bug fixing, leading to significant performance improvements and codebase modernization.
- Engaged in collaborative client consultations to ensure project alignment with business objectives and technical requirements.
- Developed mobile solutions in React Native, enabling the exploration of new segments for the client and increasing revenue by 20% in the first quarter.

### Atitude Digital Media — Web Developer (Pleno)

September 2017 - September 2019 | São Paulo, Brazil

- Developed an admin dashboard for managing web meetings, including a real-time WebRTC player.
- Maintained and optimized a monolithic video platform, reducing load times and enhancing user experience.
- Delivered custom web solutions for clients in the medical sector, utilizing Bootstrap, ReactJS, and PHP.
- Helped to implement tests and increased the tests coverage from 0% to 100% in all projects of the code base.

## Novacia — Web Assistant

May 2016 - September 2017 | São Paulo, Brazil

- Assisted in the development of responsive email marketing campaigns for Itaú Bank and educational clients.
  - Played a key role in updating and maintaining internal systems, contributing to increased operational efficiency.
- 

## Education

### **Fatec São Roque**

Bachelor's Degree in Internet Systems | January 2014 - December 2016

### **Centro Paula Souza Etec São Roque**

Technical Degree in Information Technology | January 2009 - December 2010

---

## Technical Skills

- **Front-End Technologies:** ReactJS, NextJS, GatsbyJS, Redux, React Native, ViteJS
  - **Styling Libraries:** Styled-components, Tailwind CSS, Bootstrap, Materialize
  - **Programming Languages:** TypeScript, JavaScript, PHP, SQL
  - **Testing:** Jest, React Testing Library, ViTest
  - **Deployment & DevOps:** AWS, Docker, CI/CD Pipelines
  - **Back-End Technologies:** NodeJS, Laravel, MySQL, MongoDB, GraphQL
- 

## Soft Skills

- Passionate about technology
  - Communicative and collaborative
  - Focused on product and design goals
  - Open to continuous improvement and feedback
- 

## Certifications

- TOEFL ITP (Test of English as a Foreign Language) - ETS
- 

## Languages

- **English:** Full Professional Proficiency
- **Portuguese:** Native
